

United States Government
2003 Trade Capacity Building Assistance (\$US)
ERITREA

Activity Title	Activity Description	TCB Category	FY 03 Total
Developing Capacity, Skills and Leadership Training Project	The Mission uses part of the funds under its training contract with the Academy for Educational Development to increased income of enterprises, primarily rural, with emphasis on Exports. A portion of those SO funds is used to send private and public (Ministry of Trade and Industry; Ministry of Agriculture) sector officials to events. These events include WTO and Common Market for Eastern & Southern Africa (COMESA) training sessions and workshops for government officials and representatives of leading businesses in key sectors, such as leather/tanneries or textiles. These events have helped to create a group of Eritreans knowledgeable on trade-related issues. We have also sent business representatives to sectoral trade events (including quality awards presentations) in Western Europe, North Africa, and South Africa, and the U.S. At these events, they have made contacts, including in certain instances formal linkages with counterparts, promoting trade between Eritrea and these regions. Funded and implemented by USAID/Eritrea.	WTO Awareness	32,000
FY03 Total USG Trade Capacity Building Assistance to Eritrea			32,000
