2004 Trade Capacity Building Assistance (\$US)
CZECH REPUBLIC

Activity Title	Activity Description	TCB Category	FY 04 Total
Teplarna Otrokovice Waste Heat	This Teplarna Otrokovice Waste Heat Recovery Feasibility Study will assist Teplarna Otrokovice, a private Czech heating company in the installation of a hybrid absorption system to recapture waste heat. In addition to supplying additional heat, the project will increase efficiency and obviate the need for more heat production and therefore greenhouse gas emissions from the coal-fired heating plant. The project will improve trade capacity in the Czech Republic by improving the heat generation infrastructure in the Czech Republic. (Activity# 200470034A) Funded and implemented by Trade and Development Agency.	Physical Infrastructure Development	175,000
Total FY04 USG Trade Capacity Building Assistance to Czech Republic			175,000
