2004 Trade Capacity Building Assistance (\$US)*

IRAQ

Activity Title	Activity Description	TCB Category	FY 04 Total
Economic Governance	This activity seeks to foster economic rehabilitation and reform for Iraq to stimulate the country's international trade and employment. The tasks performed under this activity will facilitate responsible economic integration of Iraq with its regional and international partners to foster sustainable job generation, adopt international standards of production, harmonize economic policy, reinforce traditional trade linkages, and develop new trade partnerships. It is also designed to develop and implement a blueprint for managing the economic and technical work to assure the food policy safety net is available for those who may be unable to function on the private market once the U.N. food program ends. Funded and implemented by USAID/Iraq.	Human Resources & Labor Standards	1,500,000
		Financial Sector Dev. & Good Governance	16,500,000
		Physical Infrastructure Development	9,000,000
		Gov/Transparency & Inter-Agency Coord.	3,000,000
		Activity Total	30,000,000
Inventory Management	The Technical Assistance would design a secure web based system to enable Iraqi administrators and warehouse managers to input and access confidential commodity information. This would be a temporary measure to alleviate mismanagement of the distribution of goods to the Iraqi public while the Certified Public Accountants (CPA) develops a comprehensive inventory management system for the country. (Activity# 200480025A) Funded and implemented by Trade and Development Agency.	E-Commerce & IT	20,500
Support for Telecommunications Network	The project involves an investment by Motorola Credit Corporation to build a global system for mobile communications (GSM) cellular network in Iraq. Funded and implemented by Overseas Private Investment Corporation (OPIC).	Physical Infrastructure Development	916,593
Total FY 04 USG Trade Capacity Building Assistance to Iraq			30,937,093
