2004 Trade Capacity Building Assistance (\$US)
POLAND

Activity Title	Activity Description	TCB Category	FY 04 Total
Metalko Waste Recycling	This Metalko Waste Recycling Feasibility Study will assist METALKO, a Polish company in developing a gasification waste to energy plant in Bydgoszcz, Poland. In addition to supplying electricity and heat, the plant will provide chemical feedstock to the chemicals company ZACHEM. The project will improve trade capacity in Poland by improving the power generation and waste disposal infrastructure in Poland. (Activity# 200470032A) Funded and implemented by Trade and Development Agency.	Physical Infrastructure Development	352,600
Wroclaw Telecom Network	This Miejskie Przedsiębiorstwo Energetyki Ciepłej Wrocław (MPEC) Wrocław Telecom Network Expansion Feasibility Study will assist MPEC Wrocław, a Polish company, in the expansion of the geographic coverage and product offering of its telecommunications network. It will allow the company to cover the entire metropolitan area of Wrocław and to offer broadband and other higher value added telecommunications services. The project will improve trade capacity in Poland by improving the telecommunications infrastructure in Poland. (Activity# 200470033A) Funded and implemented by Trade and Development Agency.	Physical Infrastructure Development	429,098
