2005 Trade Capacity Building Assistance (\$US)
HUNGARY

Activity Title	Activity Description	TCB Category	FY 05 Total
Support to Telecommunications Investment to Service Regional Market	Support to an investment that will improve the telecommunications infrastructure in Hungary and import much of its equipment. The project, including a research and development facility in Budapest, will develop an Internet broadband telephony service principally for business customers in the European market. Research indicates that the European corporate segment has low penetration, which the project in Hungary is in a good position for active participation in the European market. The project will have positive local employment effects by employing, training, and providing benefits to managers and professionals. Funded and implemented by Overseas Private Investment Corporation (OPIC).	Physical Infrastructure Development	351,900
Total FY 05 USG Trade Capacity Building Assistance to Hungary			351,900
