|   |  |                                    | <b>FY06<br/>Total</b> |
|---|--|------------------------------------|-----------------------|
| <b>Activity Title</b>   | <b>Activity Description</b>  | <b>TCB Category</b>                |                       |
| <b>Agricultural<br/>Biotechnology Training<br/>Program</b>                | This grant for an agricultural biotechnology training program for Indian officials will support training for Indian regulators and scientists on a variety of agricultural-biotechnology issues. Funded and implemented by Trade and Development Agency.   | Environmental Trade & Standards    | 125,000               |
|   |  | Human Resources & Labor Standards  | 125,000               |
|   |  | Export Promotion                   | 250,000               |
|   |  | Activity Total                     | 500,000               |
| <b>Biotechnology Patent<br/>Examination Training<br/>Program</b>          | The Trade and Development Agency is providing support to an agricultural and pharmaceutical biotechnology training program for patent examiners in the Patent Office of India, under the Ministry of Commerce and Industry. This training will enhance capacity among Indian patent examiners, while advancing intellectual property protection and facilitating trade in biotechnology. Funded and implemented by Trade and Development Agency.   | Trade-Related Agriculture          | 330,000               |
|   |  | Activity Total                     | 330,000               |
| <b>Border Security: Air<br/>Cargo Interdiction<br/>Training for India</b> | Promotes border security and customs operations by supporting the ability of India to enforce export controls and operate an international air cargo interdiction system. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Homeland Security/Customs. | Customs Operation & Administration | 55,000                |
|   |  | Activity Total                     | 55,000                |

|---|---|------------------------------------|-----------------------|
| <b>Border Security: End Use/User Training (Control Gap Analysis) in India</b> | Promotes border security and customs operations by supporting the ability of India to conduct control gap analysis within an end use / end user framework. In this type of export control, the focus is on the end-use and end-user of the item, rather than the item itself. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded and implemented by Department of State. | Customs Operation & Administration | 20,000                |
|   |   | Activity Total                     | 20,000                |
| <b>Border Security: Nuclear Export Control Workshop for India</b>             | Promotes border security and customs operations by supporting the ability of India to enforce export controls. This particular activity funded a nuclear export control workshop in support of civil nuclear dialogue. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Energy.                                | Customs Operation & Administration | 70,000                |
|   |   | Activity Total                     | 70,000                |

|---|---|---|-----------------------|
| <b>Border Security:<br/>Strategic Commodity<br/>Control Workshop in<br/>India</b> | Promotes border security and customs operations by hosting a workshop in India on strategic commodity controls. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Energy. | Customs Operation & Administration      | 30,000                |
|   |   | Activity Total                          | 30,000                |
| <b>Cold Chain System<br/>Improvement</b>  | The Trade and Development Agency is providing a grant for Technical Assistance (TA) to design and implement a targeted cold chain modernization program in India. The TA would assess, design, and implement improvements to the existing cold chain infrastructure in India through a series of in-country technical workshops and training seminars, thereby increasing the export value of agricultural commodities from India to international markets. Funded and implemented by Trade and Development Agency.   | Trade-Related Agriculture               | 325,000               |
|   |   | Physical Infrastructure Development     | 175,000               |
|   |   | Activity Total                          | 500,000               |
| <b>Development of<br/>Commodity Future<br/>Market - India</b>                     | The activity will strengthen regulation of the commodity futures markets while educating and training commodity futures markets stakeholders, participants and beneficiaries. The program will also address agricultural sector commodity futures market facilitation issues, such as improvements in warehousing, mandi board transparency, and related issues. Funded and implemented by USAID/India.   | Financial Sector Dev. & Good Governance | 1,070,000             |
|   |   | Activity Total                          | 1,070,000             |

| <b>Financial Institutions Reform and Expansion - Regulatory</b>  | The Financial Institutions Reform and Expansion - Regulatory (FIRE-R) program helps the Government of India develop its financial markets, including equity, debt and insurance. This is expected to mobilize household savings to finance long-term development and sustain high rates of economic growth. FIRE-R works closely with the regulatory agencies such as the Securities and Exchange Board of India (SEBI), and the Insurance Regulatory and Development Authority (IRDA). Activities are designed to enhance the confidence of household savers in the Indian financial markets. They develop effective regulatory and supervision frameworks that govern financial markets, promote transparency and sound market conduct practices by market institutions, modernize underlying market systems and infrastructure, and promote widespread financial literacy among investors. Funded and implemented by USAID/India. | Financial Sector Dev. & Good Governance | 1,450,000             |
|  |  | Activity Total                          | 1,450,000             |
| <b>IPR Enforcement Program for Indian Judges and Experts</b>     | The Intellectual Property Rights Enforcement Program assists in familiarizing the delegation of nine Indian judges and other intellectual property (IP) experts with models from the United States used to handle complex IP matters and reduce court backlogs. Funded by Department of State and implemented by Department of Justice.  | Agreement on TRIPs                      | 90,330                |
|  |  | Activity Total                          | 90,330                |
| <b>Identification of Needs for Meeting WTO Standards - India</b> | The activity will identify (1) needs for meeting World Trade Organization grades and selected bilateral sanitary and phytosanitary standards for participation and enhanced competitiveness in international markets for existing or new products, and (2) possible systemic and non-tariff barriers for entry of Indian agricultural products in international markets. The activity will focus on the development of capacity building requirements in terms of manpower, institutions, training and regulatory frameworks for enhancing Indian product competitiveness and on establishment of requirements for certification or accreditation agencies. Funded and implemented by USAID/India.   | Trade-Related Agriculture               | 315,000               |
|  |  | Activity Total                          | 315,000               |

| <b>India: Building Analytic Capacity and Linkages</b>                  | The Economic Research Service, part of the U.S. Department of Agriculture (USDA), completed analysis of market and trade conditions (e.g. poultry, pulses, apples) and provides ongoing analysis of agricultural policy, investment in and liberalization of Indian agribusiness and biotechnology regulation. Training on the use of the GTAP (Global Trade Analysis Project) model was also provided. Funded and implemented by Department of Agriculture.  | Trade-Related Agriculture               | 26,401                |
|  |   | Export Promotion                        | 26,401                |
|  |   | Activity Total                          | 52,801                |
| <b>Intellectual Property Rights Assessment and Meetings in India</b>   | In collaboration with judicial officials in India, the Department of Justice Criminal Division prepared an intellectual property rights assessment and held meetings to plan late summer and fall training programs in the United States. Funded by Department of State and implemented by Department of Justice/Criminal Division.   | Agreement on TRIPs                      | 10,528                |
|  |   | Activity Total                          | 10,528                |
| <b>Seminars on the US Regulatory Framework for Agriculture - India</b> | Supports seminars to be given on the US regulatory framework for agriculture. Funded and implemented by Department of Agriculture.  | Trade-Related Agriculture               | 15,275                |
|  |   | Activity Total                          | 15,275                |
| <b>Strengthening the Indian Financial Sector</b>                       | The Financial Services Volunteer Corps (FSVC) will form a Global Development Alliance (GDA) with the United States Agency for International Development (USAID), the Institute for Financial Management and Research (IFMR) and the Indian Banks Association (IBA), to support the development of the Indian financial sector. The goal of this program is to continue and to broaden volunteer-based technical assistance and training activities to strengthen the financial sector in India, with particular emphasis on lending to the small- and medium-sized enterprise (SME) sector. Program activities will involve training in international best practices and related technical assistance to support the practical implementation of policies, procedures, operations and techniques that strengthen the integrity of the financial system of India. FSVC estimates the total average value of the proposed program to be US \$1,716,000 per year over three years. Funded by USAID/GDA and implemented by USAID/India. | Financial Sector Dev. & Good Governance | 500,000               |
|  |   | Activity Total                          | 500,000               |
