			FY06 Total
Activity Title	Activity Description	TCB Category	
Border Security: Advanced Regulatory Workshop in Malaysia	Promotes border security and customs operations by supporting the ability of Malaysia to enforce regulations. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Commerce.	Customs Operation & Administration	100,000
		Activity Total	100,000
Border Security: International Seaport Interdiction Training for Malaysia	Promotes border security and customs operations by supporting training for Malaysia in international seaport interdiction. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Homeland Security/Customs.	Customs Operation & Administration	120,000
		Activity Total	120,000

Border Security: Licensing Workshop in Malaysia	Promotes border security and customs operations by improving the ability of Malaysia to operate a licensing system. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Commerce.	Customs Operation & Administration	100,000
		Activity Total	100,000
Border Security: Nonproliferation Export Control in Malaysia	Promotes border security and customs operations by supporting the ability of Malaysia to investigate incidents of nonproliferation export control. This activity is part of the Export Control and Related Border Security Assistance (EXBS) program, the premier initiative by the U.S. Government to help other countries improve their export control systems. The EXBS program takes a regional and multilateral approach, promoting harmonization of national export control systems with international standards and facilitating information-sharing agreements among nations. The program also organizes a number of regional fora to bring national policymakers and technical experts together to share information and best practices. Funded by Department of State and implemented by Department of Homeland Security/Customs.	Customs Operation & Administration	100,000
		Activity Total	100,000
Malaysia Training Module	The United States has identified biotechnology as an area of interest in free trade agreement negotiations with Malaysia. To supplement the negotiations, the United States plans to present targeted training activities aimed at constructively addressing priority biotechnology interests. Training will include workshops on risk communication, intellectual property rights and technology transfer, as well as food and environmental safety. Funded and implemented by Department of Agriculture/FAS.	Trade-Related Agriculture	34,351
		Activity Total	34,351
