Millennium Challenge Corporation Threshold Country Plan	Technical assistance to reduce the fiscal deficit to sustainable levels, improve the quality of the customs service, reduce the cost and time for registering a business and improving parliamentary oversight. Guyana Description for 2007: The bulk of funding is focused on improving fiscal policy through the restructuring of the Revenue Authority. Attempts are also aimed at developing a tax structure that would enhance the competitiveness of the economy. This includes addressing high marginal corporate tax rates. Enhancing the performance of the Customs and Trade Administration is also high on the agenda since revenue leakages are high - the result of widespread smuggling and fraud.	Other TCB		842,401
