

Table 1. Liberia Trade Capacity Assistance for 2007 and 2008

Activity Title	Activity Description	TCB Category	FY07	FY08
			Total	Total
African Development Foundation/Trade and Investment Program	Trade and Investment grants to private enterprises and nongovernmental organization in Africa promote the expansion and development of export trade. However, most of ADF's grants support small- and micro-enterprises in African countries that serve the domestic market.	Tourism Sector Development		75,237
		Activity Total TCB for Liberia		75,237
Developing necessary infrastructure for trade	USAID provided \$5,927,000 for transport services, focusing on farm-to-market roads. The roads facilitate agricultural products accessing markets for domestic and international markets, including cocoa, rubber and palm products.	Physical Infrastructure Development		5,628,001
		Activity Total TCB for Liberia		5,628,001
Energy sector policy and electricity provision	The project contributes to the re-electrification of Monrovia for household, commercial and industrial power users. Formulation of Liberia's first national energy policy. The activities encourage more FDI in the power sector and contribute to an improved business enabling environment. This amount includes \$12,000,000 in supplemental funds.	Other TCB		6,000,001
		Activity Total TCB for Liberia		6,000,001
Greater Monrovia Fiber Optic Ring	USTDA is providing a 303,000 grant, to the Liberia Telecommunications Corporation, to fund a feasibility study (FS) to assess the technical and financial viability Monrovia, where a third of the country resides. The network would lower costs for all telecom operations and increase internet access to consumers. The Government of Liberia views this telecommunications project as crucial to the overall economic development of the country and the expansion of the ICT sector as a whole.	Physical Infrastructure Development		303,001
		Activity Total TCB for Liberia		303,001
Infrastructure: Telecommunications Expansion in Liberia	\$32.5 million investment to further develop and expand the operations of Cellcom Telecommunications Inc which allows mobile telecommunications services such as voice and data, individual subscriber identity module (SIM) cards for local calls and retrieval of messages, and residential, business and government users in urban and rural areas of Liberia. Will fund the expansion of base stations (BTS) in rural areas as well as upgrade certain base stations already in service.	Physical Infrastructure Development		126,281
		Activity Total TCB for Liberia		126,281
Mano River Stabilization Project in Liberia	The is a joint effort between the Commercial Law Development Program and Market Access and Compliance in the Department of Commerce to fund the first phase, i.e. assessment phase of a multi-year project to improve trade between the Mano River countries in west Africa as part of stabilization and reconstruction efforts. Liberia Description for 2008: Liberia, along with Guinea and Sierra Leone, are members of the Mano River Union created to help eliminate conflict between the three countries and facilitate trade through a customs union.	Other TCB		13,001
		Activity Total TCB for Liberia		13,001
Political Risk Insurance: Manufacturing Equipment - Liberia	This project helps to increase the availability of heavy construction equipment for rent, which is primarily used for infrastructure rehabilitation.	Physical Infrastructure Development	7,862	
		Activity Total TCB for Liberia	7,862	
Promoting technology transfer to enhance trade	Providing expert assistance to the Government of Liberia to harmonize information and communication technology policies and protocols and prepare the regulatory, organizational and commercial elements of an international backbone for internet access.	Physical Infrastructure Development		3,100,001
		Activity Total TCB for Liberia		3,100,001
