Activity Title	Activity Description	TCB Category	FY07 Total	FY08 Total
Agricultural Sector Productivity Activities	Agricultural productivity efforts of USAID/Madagascar promote profitable and environmentally friendly approaches to reduce rural poverty. The Mission will scale-up agricultural productivity by encouraging positive incentives for the adoption of sedentary, market based farming systems to have a significant and lasting impact. This program improves farmers' food security and agricultural productivity by focusing on mobilizing productive and environmentally sound farming systems.	Trade-Related Agriculture	280,002	320,002

Business and Biodiversity Offsets Program (BBOP)	The Business and Biodiversity Offsets Program (BBOP) assists businesses and governments to design and implement biodiversity offsets that will mitigate loss of biodiversity from extractive industry. It is also setting international standards for these offsets and helping countries to learn about and ultimately adopt these standards into their policies. Countries that use these offsets will be able to maintain healthy environments while attracting and retaining industries for economic growth. Madagascar Description for 2008: In Madagascar, BBOP is working with Dynatec in Ambatovy to help set up an offset for its nickel mine but also working on the national level to embed biodiversity offsets into national level policy. BBOP staff has even met with the President of Madagascar to discuss this and there is a national level meeting planned for 2009.	Environmental Trade and Standards		5,001
