Business and Biodiversity Offsets Program (BBOP)	The Business and Biodiversity Offsets Program (BBOP) assists businesses and governments to design and implement biodiversity offsets that will mitigate loss of biodiversity from extractive industry. It is also setting international standards for these offsets and helping countries to learn about and ultimately adopt these standards into their policies. Countries that use these offsets will be able to maintain healthy environments while attracting and retaining industries for economic growth. South Africa Description for 2008: In South Africa, BBOP works with Anglo-American on the implementation of a biodiversity offset at a large platinum mine. Through this partnership, BBOP influences mining operations in South Africa as a whole.	Environmental Trade and Standards		5,001

Financial Services Program (FSP)	Started in late FY2007, the new Financial Services Program (FSP) will enhance the growth of black small and medium enterprises (SMEs) in South Africa by expanding their access to high quality and affordable financial services that will benefit regional, national, and/or international trade. The FSP will work with financial institutions to improve and expand financial services and products, better manage and mitigate financial risk and transaction costs, and improve SMEs' trade competitiveness. South Africa Description for 2008: South Africa's growth strategy relies on increased Black Economic Empowerment to increase equity and increased competitiveness of black small and medium enterprises (SMEs). Given this strategy, TCB activities focus on regulatory, financial and business support requirements for black SMEs to increase regional and international trade.
