Intellectual Property Foreign Criminal Enforcement Training and Technical Assistance	This spending responds to a Congressional soft earmark directing the Department (INL) to fill a gap in govt-to-govt criminal enforcement training to build capacity of foreign law enforcement to cooperate with the USG in combating IPR theft. The earmark has been put in annually at the instance of key US industry rights holders who believe strong government-to-government involvement in training was a 'missing link' that needed to be filled to counter increasingly sophisticated transnational crime. Brazil Description for 2011: BRAZIL: IPR Training for Law Enforcement. USPTO proposes two training seminars through the US Embassy partnership with the Brazilian Government targeting enforcement officials in Sao Paolo region. The assistance will focus particularly on "notorious markets" identified in USTRs Special 301 Out-Of-Cycle review of Brazil by providing training directly to officials of those states and municipalities.
