<b>Rural Value Chains in Guatemala</b>	The goal of RVCP is to increase sustainable market-led growth in rural areas as a means of sustainably reducing rural poverty and chronic malnutrition. The objective of this project is expanding the participation of poor rural households in productive value chains and linking those chains to local, regional, and international markets. This will improve household access to food by expanding and diversifying rural income, contributing to improve the nutritional status of families.	Trade-related Agriculture		1,250,000

<b>Small Project Assistance III Participating Agency Program Agreement</b>	The Small Project Assistance PAPA between USAID Guatemala and the United States Peace Corps supports a myriad of activities. The Peace Corps utilizes resources from USAID to implement projects in sustainable agriculture and use of natural resources. Through this support of Peace Corps, USAID/Guatemala is able to utilize the invaluable resource of community trust which Peace Corps provides. Target beneficiaries are among poorest and under-served in the country.	Trade-related Agriculture	100,000	100,000
		Environmental Standards and Trade	150,000	
		Activity Total	250,000	100,000
<b>Strengthen Competitiveness of Guatemala Business and Products</b>	The activity helps the creation of supply chains alliances that link Guatemalan producers in the agribusiness sector directly or indirectly with national and international buyers. As result, new producers can be incorporated into the market economy and export process. Target beneficiaries include producers in rural areas most vulnerable to natural disaster. This activity has contributed to link producers located in indigenous rural areas to potential clients and buyers.	Trade-related Agriculture	130,000	76,343
		Trade Promotion	390,000	229,028

			Total	Total
<b>Technical Assistance: Budget and Financial Accountability - Guatemala</b>	The project focuses in four main areas: compliance with international accounting standards; strengthening of internal control over procurements and payments; enhanced fiscal analysis capacity; and integration of the financial management system and staffing, which is a stand-alone project, into the information technology (IT) and business functions of MPF.	Competition Policy, Business Environment, and Governance	135,270	514,650
		Activity Total	135,270	514,650
<b>Technical Assistance: Guatemala - Economic Crimes</b>	Review and revision of laws and regulations covering financial crime, drafting legislation criminalizing the financing of terrorism, and assisting in measures to enable asset forfeiture and anti-corruption regulation. Build cooperation and cooperation between the FIU and the national police, Public Ministry, and judiciary to detect, investigate, and prosecute fraud, money laundering, financial crimes, financing terrorism, and corruption.	Competition Policy, Business Environment, and Governance	453,965	489,804
		Activity Total	453,965	489,804
<b>Technical Assistance: Guatemala - Government Debt Issuance and Management</b>	Create new public debt law; develop new regulatory scheme; introduce standardized, fungible, dematerialized government securities; enhance auction calendars, distribution mechanisms and price reporting; eliminate tax distortions; develop strategy for retail distribution of government securities; introduce efficient market infrastructure; and strengthen government and central bank communications with the market.	Financial Sector Development	387,661	549,670
		Activity Total	387,661	549,670
<b>Technical Assistance: Guatemala - Revenue Administration and Policy</b>	Assistance to Guatemala's Tax Administration (SAT) to improve transparency, combat corruption, and create a more efficient and effective tax administration. Assistance in 2011 focuses on continuation of several large scale multi-year projects in Fiscalization; improve taxpayer satisfaction; address major areas of taxpayer non-compliance; and improving overall state of accounting and auditing knowledge and skills through the country.	Competition Policy, Business Environment, and Governance	356,662	335,063
		Activity Total	356,662	335,063
<b>Urban Air Quality Program</b>	Reliable air quality data is vital for successful air quality management and will form the basis for effective regional solutions. EPA will assist the region in strengthening its air monitoring technical capacity which will enable the CAFTA-DR countries to obtain the information needed to: develop long-term strategies that address mobile and stationary sources of air pollution and establish a regional air monitoring network. The countries have environmental obligations under trade agreements.	Environmental Standards and Trade		57,500
		Activity Total		57,500
<b>Wastewater Model Regional Regulation</b>	USEPA has provided technical assistance to the CAFTA-DR countries in the development of a regional model wastewater regulation, including a set of 11 basic elements to implement a wastewater management program. All of the countries have begun implementation of at least two basic elements and have been provided with a process to establish wastewater discharge parameters for key industrial sectors in the region.	Environmental Standards and Trade		6,660
		Activity Total		6,660
