MAJIC Project	TA and capacity building is given to the Ministry of Agriculture, through Farmer Field Schools, to facilitate increased export competitiveness and trade. This will be achieved by supporting an agriculture MIS; promoting financial services for production, productivity, and marketing; strengthening farmer-buyer market linkages throughout selected value chains; and improving the production and marketing of select specialty and high value crops (cocoa; scotch bonnet pepper) Jamaica Description for 2011: The agriculture sector represents a critical component of Jamaica national development as a small yet important contributor to GDP, employment, foreign exchange earnings and rural life. The agricultural economy is dualistic, comprising large scale commercial plantations that produce primarily for the export market under a system of monoculture and small-scaled mixed farms that produce for household subsistence and the domestic market. In 2010 Agriculture contributed 5.8 percent to total GD	Trade-related Agriculture	100,000	150,000

PRIDE Jamaica	The overarching goal is to enhance trade facilitation, reduce corruption, and increase border security by providing technical assistance to the Jamaica Customs Department (JCD). Specifically, the project will focus on activities which develop a more efficient and effective risk management framework for customs which decreases the time and cost of trade while increasing competitiveness and domestic revenue mobilization. Jamaica Description for 2011: Located on the USA's third border, Jamaica's interaction with our country is deep and continuous. About 1.5 million people of Jamaica extraction live in the USA, more than half of Jamaica's total population. Three million people travel between our two countries each year, including over 2 million US citizens visiting Jamaica and the Cayman Islands.	Trade Promotion	150,000
